MEMORANDUM

Date: September 26, 1994

To: Jim Coffey
Bill Meyer

From: Bill Sessoms
Brad Atkinson BA

Re: Camp Lejeune MSWLF Site Approval and Construction Permit Application

On July 7, 1994 the Section met with representatives of Camp Lejeune to discuss a time schedule for completing review of Lejeune's Site Study and for review of Lejeune's, as yet to be submitted, Construction Permit Application.

The following are benchmarks and scheduled submission/response dates that were agreed upon:

- 8/15 Applicant to submit preliminary test results
- 8/30 Section to begin brief review of draft Construction Permit Application
- 8/31 Applicant to submit final Site Study application
- 9/7 Section to complete review of Site Study
- 9/7 Section to provide initial comments on draft Construction Permit Application
- 10/15 Applicant to submit final Construction Permit Application

A complete schedule is attached for your information.

The above dates were established to allow a fast-track review of this project in anticipation of the Section preparing a draft Permit to Construct on January 1, 1995. It was stressed in the meeting that adherence to this schedule was essential in order for the Section to have a minimally sufficient time to review the various components of the applications.

This memorandum is to inform you that as of this date, NONE of the above items have been submitted to the Section. Brad Atkinson & I will make all efforts to expedite the reviews once we receive the completed applications, however, the delay in submission of the above items makes it increasingly difficult for the Section to meet the goal of issuing a draft permit on January 1.

As an additional note, Camp Lejeune also has a deadline of September 30 to submit a complete Transition Plan.
